EXPERIENCE

IEEE CS MUJ

Joint Head of Promotions

May 2023 - April 2024

- * Joined as a Junior committee member, rose to Joint Head of Promotions. Honed communication skills, mastered social engagement, and crafted impactful messages during my tenure.
- * IEEE CS propelled me beyond technical skills. I aced social media marketing, amplifying reach and building communities.
- * Skilled in graphic design for impactful visuals, alongside event management and planning expertise for seamless execution.

Under25

ProdXop Team

November 2024

- * Joined ProdXop under Under25, managing large-scale events. Expanded my network and explored diverse perspectives.
- * My Under25 ProdXop experience fostered cross-cultural understanding. I connected with a diverse group of individuals, broadening my horizons. .

SecureMyOrg

Digital Marketeer and Community Manager

February 2024- Present

- * Supported a student-founded startup (IIIT Allahabad) based on Cybersecurity by leading their Discord community engagement and contributing to marketing efforts.
- * Managed and fostered a thriving Discord community for a student-led startup, fostering connections and building a strong user base.

IC Hacks 2.0

Promotions Team

Month Year - Month Year

- * · Propelled by a desire to make a splash, I joined the promotions team for ICHACKS 2.0 – the inaugural mega-hackathon at Manipal University Jaipur, the biggest IEEE hackathon of its kind. This experience proved to be a baptism by fire, immersing me in the intricacies of hackathon organization and promotion. .

Litmus

Junior Working Team

December 2022- May 2023

- * Litmus, my platform for igniting intellectual discourse, fueled my passion for writing and debate. As part of their debating and writing section, I honed my research and writing skills, crafting compelling arguments and expressing myself clearly. Participating in lively debates further sharpened my critical thinking and communication abilities, all while nurturing my love for the written word.

PROJECTS

- * **Travello**, Crafted in Figma, my travel website prioritizes user-friendly activity booking with clear category filters and intuitive search by interest (adventure, relaxation) and price. Vibrant Canva-designed icons enhance discovery, making activity exploration a breeze. [Linkedin](#)
- * **Captify**, For MUJHACKX, I designed Captify – a Figma prototype that sparks social connections between entrepreneurs and potential funders. Captify’s user-friendly interface, with intuitive search and clear categorization, simplifies the process. Enhance the platform’s appeal, fostering collaboration and igniting the entrepreneurial spirit. [Linkedin](#)
- * **FitStreak**, Inspired by the user-centric design of Apple Fitness and Google Fit, I crafted FitStreak in Figma. This mobile application prioritizes user motivation and ease of use, empowering individuals to achieve their fitness goals. FitStreak’s intuitive interface allows users to seamlessly track daily activities, visualize progress, and set personalized workout routines. By combining the best aspects of leading fitness apps, FitStreak aims to make fitness accessible and engaging for everyone. [Linkedin](#)
- * **AchievR**, Coming Soon. [Try it!](#)
